

Corporate travel insurance

ATP Government Travel will provide travel insurance for every business trip upon request. This not only gives you coverage against all occurrences of damage, but also gives you access to a worldwide service network that provides assistance in case of unexpected emergencies.

Two types of insurance are available:

- Repatriation and extraordinary expenses: basic coverage
- Full travel insurance: the above repatriation insurance serving as a basis, supplemented with any relevant categories

For a summary of the categories covered by each type of insurance, please refer to the Conditions of Insurance. You are deemed to know these Conditions. Neither ATP Government Travel nor AIG Europe nor International SOS accept any liability if the Conditions have not been met. Important: please consult your travel service to determine the appropriate type of insurance for you!

Insurance company

You are insured with the insurance company AIG Europe (Netherlands) through International SOS. N.V. AIG Europe is a division of American International Group Inc. with more than 140 offices worldwide. AIG is one of the world's top 10 largest insurance companies - a guarantee for quality and swift processing.

Coverage

The insurance has worldwide coverage and starts as soon as the insured person or the insured luggage, respectively, has left the residence or the work building of the insured and it ends as soon as the insured or the luggage, respectively, returns there. For one-way trips, only the actual days of travel are covered, i.e. the day(s) spent on the aircraft or on the train from the time of departure from one's residence or work building until the time of arrival at one's first address of accommodation, or vice versa. Each trip is subject to a maximum period of insurance of twelve months. Please consult your travel service or ATP Government Travel for other travel insurance options available.
